EXPERIENCE

UI/UX DESIGNER — *Bigul.co (Retail Trading Platform)*

Nov 2024 -Present

- Owned end-to-end UX for a trading platform (web and mobile), covering onboarding, portfolio tracking, and order execution.
- Increased **KYC completion** by +22% by redesigning step flows, reducing form fatigue, and improving error handling
- Improved **task success rate** by +28% across buy/sell and portfolio actions via clearer interaction patterns and information hierarchy
- Reduced **support tickets** by –25% by simplifying dashboards and introducing self-serve states
- Improved **time-to-complete onboarding** by ~18%, accelerating user activation

UI/UX DESIGNER — *Shanti Infosoft LLP (CMMI Level 5)*

May 2024 – Nov 2024

- Led UX delivery for enterprise web/mobile systems used in operational workflows
- Designed QC dashboard + AI chatbot, reducing manual effort and improving process visibility
- Shortened design iteration cycles by ~18% through structured workflows and stakeholder alignment

UI/UX DESIGNER — *Kimirica Lifestyle Pvt. Ltd*

Jul 2022 – Apr 2024

- Improved **conversion rate** by +15–22% (from ~2.8% → ~3.4–3.6%), aligning closer to industry benchmarks (~5.1%), by enhancing product storytelling, trust signals, and navigation
- Increased **checkout completion** by +18–22%, reducing friction through simplified flows, autofill, and faster payment options
- Reduced **cart abandonment** by ~14–18% by improving pricing clarity, delivery messaging, and checkout UX
- Boosted AOV** by +12–16% via cross-sell modules, bundling strategies, and free shipping thresholds
- Delivered +12–18% **uplift in landing page performance through A/B testing** (PDP layouts, CTA hierarchy, and content structure)
- Increased **user retention** by +10–14% through improved engagement flows and personalized experiences
- Built a **scalable design system**, reducing design/dev effort by ~20–25%

- Designed UX for SaaS platforms and dashboards, improving workflow clarity and efficiency
- **Reduced user errors by ~15%** by refining information architecture and interaction patterns
- Accelerated **feature delivery cycles by ~20%** through improved design documentation and collaboration
- Translated complex requirements into scalable, reusable UX frameworks

- Delivered visual and UI design for FMCG and marketing campaigns across digital and offline channels
- Improved brand consistency across touchpoints, strengthening recognition and recall
- Designed packaging and scalable visual systems for FMCG and bakery products
- Managed end-to-end creative production including photoshoots and marketing assets
